

## Profile

# Carol Moynes

### Experience

#### **Burger Consulting Group — January 2009 to Present**

Joined Burger Consulting Group to assist construction clients in the planning stages and the successful implementation of new software.

#### **Independent Consultant – July 2008 to January 2009**

Consultant to construction companies assisting in implementation of upgrades, re-evaluating use of existing software and improving processes to obtain more value from their systems.

#### **Viewpoint Construction Software – August 1978 to June 2008**

Product Manager for the construction Accounting and Project Management software developed and sold to mid-range and large general contractors, heavy/highway contractors, and subcontractors. Participated in the design of the software by sharing expertise with the development team of construction business processes, user needs and requirements. Earlier positions involved managing customer support, training development and providing implementation assistance and on-site training to approximately one hundred construction companies.

#### **Earlier Experience:**

Provided independent accounting services to contractors in the Southern California area.
